

Don't trust probiotics with hidden identities.

Get the ID Guarantee with UltraFlora™

→ Probiotics

When a probiotic doesn't reveal the full identity of its microbial strains, then the expected results are unclear.

With UltraFlora formulas, the purity, clinical reliability, and predicted safety are guaranteed through the scientific identification of strains with established health benefits. Assuring potency and high viability, each strain is also tested for acid tolerance and cell adherence in vitro.*

UltraFlora is available in 9 distinct formulas to meet the unique needs of all of your patients.*

- Scientific strain identification
- Purity & viability testing
- Reputable scientific support
- Guaranteed potency
- Comprehensive range of proprietary formulas
- New UltraFlora™ Spectrum & UltraFlora™ Children's
